Patients First Surgery Center Awarded Three Year Accreditation

Washington, MO, November, 2010 – The Patients First Surgery Center has been awarded a three year accreditation by The Accreditation Association for Ambulatory Health Care, Inc., (AAAHC).

The AAAHC accreditation certificate is a symbol that an organization is committed to providing high-quality health care. The organization has demonstrated that commitment by meeting the nationally-recognized high standards of AAAHC. Accreditation is a voluntary process which involves self-assessment by the organization, as well as a thorough review by the AAAHC surveyors, who themselves have extensive experience in the ambulatory health care environment.

Opened in 2009, the Patients First Surgery Center is multi-specialty and offers the latest technology combined with the finest surgical care available. In addition to the AAAHC accreditation, the Patients First Surgery Center is also licensed by the State of Missouri and CMS (Centers for Medicare and Medicaid Services). Patients can expect quality service with all of the advantages of same-day outpatient surgery. The following specialties offer some same-day surgeries at the out-patient surgery center; general surgery, gynecology, plastic surgery, gastroenterology, orthopedics, ENT, urology, podiatry and pain management.

The Patients First Surgery Center can be reached by calling (636) 390-1715. To find out more about Patients First Health Care visit www.patientsfirsthc.com .
